FINESTRA

Shower Solutions

Finestra Creations has been designing and producing high quality shower solutions for more than 15 years. Our specialist and innovative manufacturing processes facilitate the production of uniquely designed products. Finestra manufactures a wide range of showers from Screens, Semi-frame less cubicles, Sliding shower doors, Bath screens and our signature designed Telescopic pivotal range.

The critical selection of raw materials with strict adherence to quality monitoring processes at our production facilities has enabled us to provide quality products and customer specific solutions with available spares through our extensive distribution network in Southern Africa.
